Get your hands on the Totem Tribe Gold and become the ruler of your own jungle! To do this, you will have to travel throughout the island, which consists of four maps; the Chinchomp, the Jantele, the Pale Islands and the Rainbow Mountain. Each map contains its own missions and tasks to complete, such as building certain structures, completing certain battles, and so on. Delve into the prehistoric eras of several pre-historic cultures. Your tribe has been sent to foreign lands and you will have to venture out to find the totems. Each location will contain its own task, which may include constructing a temple, building a village, getting a fish diet, bringing a mine, battling the monsters, and so on. Totem Tribe Gold Free Download Full Version

Totem Tribe Gold takes place on the larger map that the first game revolves around, featuring a lot of new terrain, but it includes only the 7 tribes on it. Get out and find them all, and you'll be richly rewarded. For strategy lovers, a lot has changed in the sequel. Rather than a small, simple map with a few resource bases and a few villages, you'll find lots of different terrain, lots of creatures to keep track of and lots of activities to enjoy. And unlike its predecessor, Totem Tribe Gold allows you to control all the elements involved in any activity. You can make miracles happen, if you wish, and as one character says, it doesn't matter if it takes 20 years - you just have to believe. A solid game that looks and plays like a blockbuster and a bit like a good indie game, Totem Tribe Gold is a good game. With a new interesting race, a new 3D environment, and a game that shows you how to use your attacks to your advantage, this is the best game on the market right now. Beware if you download Totem Tribe from the internet because it may not be the game you think you're downloading. It's rather silly to discover that the.zip contains two different games, for about two minutes. I like the fresh, updated look of this version of Totem Tribe. New level design, new menu interface, new puzzles. But I can't take my eyes off the fact that there are hundreds of little kids playing this too. It's very distracting. The little kids are within the game, and they follow you around. It's actually pretty weird and cute. I really like the new version of the game.
