Good game! 0:42 hrs: Darius Lack of obstacles and
enemies was the problem I expected! I like to test
myself against all the challenges that were
available. Different starting positions, enemies from
the beginning, different paths and obstacles to
encounter along the way. An excellent game!Q:

UIView with UILabel inside it does not show anything, even though I set UI_APPEARANCE_SELECTOR I have a UIView with a UILabel inside it. I am using a UIApplication.sharedApplication().setStatusBarHidden(true, withAnimation:.none) function to set the status bar to hidden. The app's background colour is grey so the status bar is the only thing that is visible. The label should be visible because it has set the appearance to.label. But it does not show up in the simulator. Am I missing something in the code? This is my code for the view: override func viewDidLoad() { super.viewDidLoad() for label in self.emailArray { emailLabel = UILabel() emailLabel.text = label emailLabel.font = UIFont.systemFont(ofSize: 18) emailLabel.textColor = Colors.green emailLabel.textAlignment = .center emailLabel.layer.borderWidth = 1.0 emailLabel.layer.borderColor = Colors.clear.cgColor emailLabel.alpha = 1.0 emailLabel.appearance.textColor = Colors.white emailLabel.layer.cornerRadius = 30. 5ec8ef588b
